

Quotes from participants attending MCEC's *Supporting Children of the National Guard and Reserve Institute*

This was the most amazing and eye opening training I have ever attended. It was truly the one and only training that I have attended that I was at the edge of my seat wanting more information and wanting to come back the next day. It could have gone longer and it would not have phased me in the least.

Thank you for two incredible days of learning and sharing. Having four parents within the past four years in various military (all guard and reserves), three of them deployed to Iraq, this conference enhanced and cemented our commitment to the families and the children. Excellent!!!!

I have attended many conferences over the past 20 years. This conference was outstanding and extraordinary. Both days were filled with timely, invaluable information and activities. Everything was and continues to be useful. Thank you!!

I work in a high school counseling dept., have a husband in Iraq and three children. The information and networking was invaluable to me. I love your enthusiasm and commend you for your good work.

I first thought I knew everything that was going to be discussed. I now know that I was wrong.

I cannot wait to get back to work and share all the wonderful information with our Principal and staff. The training was very informative. Great job!

The institute was fantastic. I must say this is one of the best institutes I have ever attended.

It was a pleasure to attend this wonderful training; it was well-organized, interactive, interesting, useful, realistic, and delivered important information in ways that personalized rather than politicized the issues. I would definitely recommend this training to others. This resource has been a useful tool to demonstrate continuation of gaining timely information in my field. Thanks again!
